Can You Really Find Cheap Flights on Chase Travel?

Flights on the portal are:

- Sometimes the same price as airline websites
- Occasionally slightly higher
- Occasionally cheaper in specific scenarios

The key is knowing **how to search and optimize your booking strategy**.

Step-by-Step: How to Find the Cheapest Flights on Chase Travel Portal

1. Be Flexible With Travel Dates

Flight prices change constantly based on demand.

Tips:

- Search across multiple dates
- Choose midweek departures (Tuesday–Thursday)
- Avoid peak travel seasons

Flexibility can reduce airfare by **20–40% or more**.

2. Use the Points + Cash Option Strategically

One of the biggest advantages of Chase Travel  1-888-483-9719 is the ability to combine points and cash.

Why it matters:

- You can reduce out-of-pocket cost
 - You still earn rewards on the cash portion
 - You can maximize redemption value
-

3. Compare Prices Before Booking

Never rely on one platform.

Before confirming your booking:

- Check airline websites directly
- Compare with flight aggregators
- Evaluate the total cost (including baggage fees)

This ensures you're actually getting the lowest price.

4. Avoid Basic Economy Traps

Sometimes the cheapest fares (basic economy) are:

- Not displayed clearly
- Not included in portal results

While these fares are cheaper, they often come with restrictions like:

- No seat selection
 - No changes
 - No carry-on in some cases
-

5. Book Flights Early (But Not Too Early)

Timing is everything.

Best booking window:

- Domestic flights: 1–3 months in advance
- International flights: 2–6 months in advance

Booking too early or too late can increase prices significantly.

6. Use Chase Credit Card Benefits

If you have cards like:

- Chase Sapphire Preferred
- Chase Sapphire Reserve

- Get boosted point value
- Earn bonus rewards (up to 5x–8x points)

This effectively reduces your flight cost.

7. Set Price Alerts Outside the Portal

Use external tools to:

- Monitor fare drops
- Identify the best time to book

Then return to the portal to finalize your booking.

8. Look for Alternate Airports

Flying into or out of nearby airports can significantly reduce costs.

Example:

- Instead of a major hub, try secondary airports nearby

This is one of the most overlooked strategies for saving money.

9. Use One-Way Flight Combinations

Sometimes booking:

- Two one-way tickets
instead of
- One round-trip ticket

can result in lower total cost.

10. Call for Expert Assistance

If you're unsure about pricing, routing, or deals, speaking with a travel expert can help.

 Call **1-888-483-9719** for assistance with:

- Fare comparisons
